Subject: Microsoft Settlement

PLEASE SETTLE. END THE MATTER.

My beloved Uncle Sam appears to me (and to many others both in the United States and abroad) to be caught up in time-consuming, very expensive, arguing back and forth. That sort of involvement is counter-productive for all of us.

Microsoft has made enormous contribution to the economy of the United States. Please consider and be as fair and just as possible, but please settle. Please end the whole matter. Please try to do it now.

Godspeed!
